

RCE Kick Off A Public Webinar 10/07/2019

How To Participate Today

Problems or Questions? Contact Dawn Van Dyke

dvandyke@sequoiaproject.org or 703.864.4062

Meet the RCE Team

Mariann Yeager CEO The Sequoia Project

Dave Cassel Executive Director Carequality Inc.

Steve Gravely Founder & CEO Gravely Group

Stephanie Rizk Manager, Health IT Policy RTI International

Agenda

- Welcome by Office of the National Coordinator for Health IT (ONC)
- Trusted Exchange Framework and Common Agreement Overview
- Recognized Coordinating Entity Explained
- A Roadmap for Success

Elise Sweeney Anthony Executive Director Office of Policy

Welcome by Office of the National Coordinator for Health IT

Trusted Exchange Framework and Common Agreement Overview

"[T]he National Coordinator shall convene appropriate public and private stakeholders to develop or support a trusted exchange framework for trust policies and practices and for a common agreement for exchange between health *information networks.*" [emphasis added]

Current Costs

Healthcare organizations are currently burdened with creating many costly, point-to-point interfaces between organizations.

The Trusted Exchange Framework and the Common Agreement **would reduce the need for duplicative network connectivity interfaces**, which are costly, complex to create and maintain, and an inefficient use of provider and health IT developer resources.

Proliferation of Interoperability Methods

A nationally representative survey by the American Hospital Association found¹ that: Few hospitals used only one interoperability method.

- 78% of hospitals use more than one electronic method to send records
- 61% of hospitals use more than one electronic method to receive records
- About 40% used five or more methods to send records

TEFCA Goals

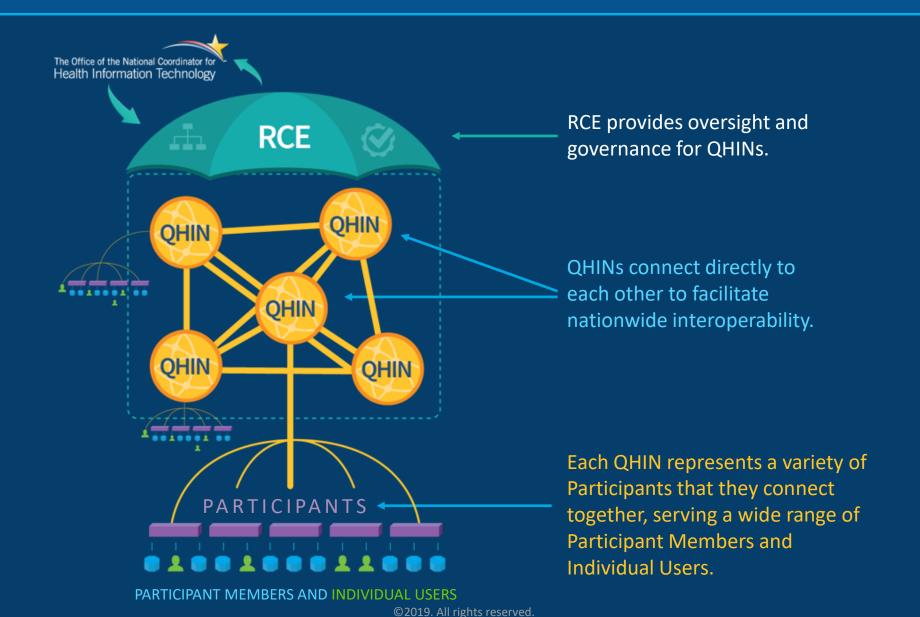

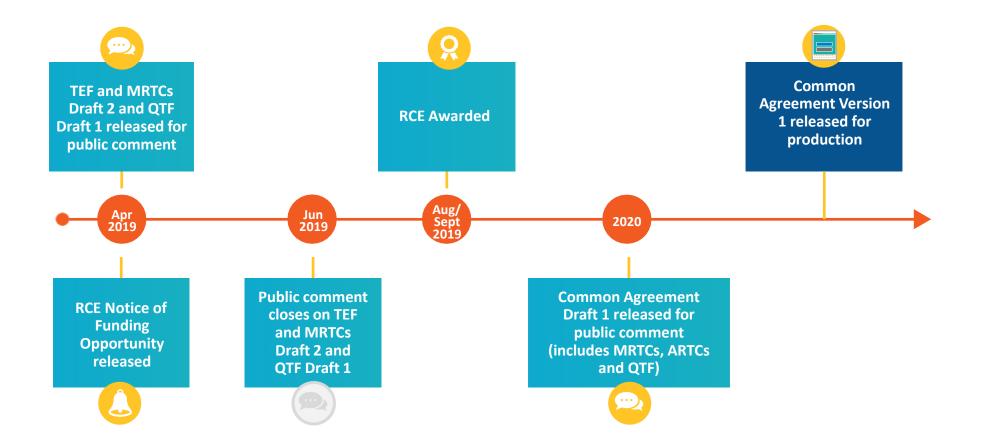

Provide a single "on-ramp" to nationwide connectivity Electronic Health Information (EHI) securely follows you when and where it is needed Support nationwide scalability

How Will the Common Agreement Work?

Timeline

RCE Role and Planned Work

RCE Selection

- ONC posted a Notice of Funding Opportunity
- The Sequoia Project applied, with support from 55+ organizations
- The Sequoia Project was selected in September 2019
- News Release: <u>https://www.hhs.gov/about/news/2019/09/03/onc-awards-the-sequoia-project-cooperative-agreement.html</u>

RCE Key Milestones

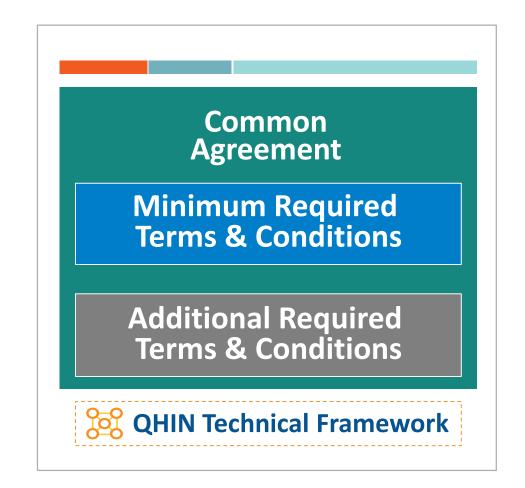

• Year 1

- Planning and ramp up
- Engage stakeholders and enlist input
- Develop the Common Agreement
- Update the QHIN Technical Framework (QTF) for production use
- Develop a process to designate and monitor Qualified Health Information Networks (QHIN)
- Subsequent Years
 - Facilitate ongoing stakeholder engagement and input
 - Maintain Common Agreement
 - Maintain QTF
 - Designate and monitor QHINs
 - Propose sustainability strategies

What is The Common Agreement?

The **Common Agreement** will provide the governance necessary to scale a functioning system of connected HINs that will grow over time to meet the demands of individuals, clinicians, and payers.

What is the QHIN Technical Framework?

The QHIN Technical Framework (QTF) describes the technical and functional requirements for EHI exchange between QHINs

Minimum Required Terms and Conditions (MRTCs)

- Definitions
- Initial application, onboarding, designation and operation of QHINs
- Data quality and minimum necessary
- Transparency (e.g. agreements and fee schedules, disclosures)
- Cooperation and Non-Discrimination
- Privacy, Security and Patient Safety
- Participant Minimum Obligations
- Participant Member Minimum Obligations
- Individual Rights and Obligations

Additional Required Terms and Conditions (ARTCs)

- Additional necessary terms for an effective, operational data sharing agreement
- May not conflict with MRTCs
- May include
 - Determine fee schedules
 - Process for surveilling and testing QHIN compliance
 - Arbitration for adjudicating non-compliance
 - Complaint and dispute resolution process
 - Suspension and termination
 - Other

Status and Next Steps

- Complete detailed work plan and stakeholder engagement strategy
- Detailed review and analysis of feedback and language undergoing revision
- Begin work on Common Agreement components in close coordination with ONC
- Launch additional stakeholder engagement process
- Host public webinars to maximize transparency

How to Get Involved

rce.sequoiaproject.org Website Launched

The Office of the National Coordinator for Health Information Technology

Upcoming Events

• Fall 2019

Interoperability Matters Public Forum (TENTATIVE)

- December 5th The Sequoia Project Annual Meeting
- * Other events to be announced

Questions & Discussion
