RCE Update
Status Update

• Prepare QHIN and RCE Metrics and facilitate Paperwork Reduction Act (PRA) clearance
• Prepare Common Agreement Draft Version 1 for public comment
• Facilitate stakeholder feedback sessions
• Develop Standard Operating Procedures (SOPs)
• Define QHIN onboarding and designation process
• Prepare QHIN Technical Framework Draft Version 2 for public comment
RCE Metrics Development
Status Update

- Responses received from CAWG members providing details on proposed specifications of year 1 metrics.
  - General support for third-party accreditation options: reduces potential for perception of bias; alignment would streamline existing business processes
  - Further understanding of the specifications will be required in the Standard Operating Procedures (SOPs)
  - Level of burden for providing data to support various proposed measures varies depending on current operational processes and infrastructure (some already have ability to provide, some would have to develop the ability).
- Next Steps: Summarize responses on burden and finalize draft application for OMB Paperwork Reduction Act application; Coordinate feedback with SOP team.
