2021

- Public engagement
- Common Agreement Work Group sessions
- RCE and ONC use feedback to finalize TEFCA

Q2 of 2022

- QHINs begin signing Common Agreement and applying for designation

2023

- Establish Governing Council
- Follow change management process to iterate Common Agreement, SOPs, and QTF, including to support FHIR-based exchange

Q1 of 2022

- Publish Common Agreement Version 1
- Publish QHIN Technical Framework (QTF) Version 1 and FHIR Roadmap
- Initiate work to enable FHIR-based exchange
- Public education and engagement

Q3 and Q4 of 2022

- Onboarding of initial QHINs
- Additional QHIN applications processed
- RCE establishes Transitional Council
- RCE begins designating QHINs to share data
- Prepare for TEFCA FHIR exchange pilots

ENTITY

SOP Name	Expected Publication of Version 1 Final
QHIN Security Requirements for the Protection of TI (Update)	Version 1.1 released 5/16
Exchange Purposes	June 2022
RCE Fee Structure for QHINs (Schedule 1)	June 2022
Types of Entities That Can Be a Participant or Subparticipant in TEFCA	July 2022 (Draft released 5/16)
QHIN Onboarding & Designation (and QHIN Application)	August 2022 (Draft released 5/16)
Means to Demonstrate U.S. Ownership and Control of a QHIN	August 2022
Individual Access Service (IAS) Provider Privacy and Security Notice	August 2022
Individual Access Services (IAS) Exchange Purpose Implementation	August 2022
Participant and Subparticipant Security	October 2022
Other Security Incidents and Reportable Events	End of 2022
Payment and Health Care Operations Exchange Purpose Implementation	Early 2023
Public Health Exchange Purpose Implementation	Early 2023
Government Benefits Determination Exchange Purpose Implementation	Mid 2023
Suspensions Process	2023
Successor RCE & Transition	2023

Draft Types of Entities That Can Be a Participant or Subparticipant In TEFCA SOP

Draft Types of Entities That Can Be a Participant/Subparticipant

If an entity is not of a type that is entitled to request information under one or more of the Exchange Purposes, it shall not qualify as a Participant or Subparticipant for purposes of any Framework Agreement.

Without limitation of the foregoing, only an entity that is one or more of the following types shall be permitted to be a Participant or a Subparticipant:

- (i) a Covered Entity (or a Business Associate acting on its behalf for the Exchange Purpose of the Covered Entity);
- (ii) a Government Health Care Entity (or an agent or contractor of the Government Health Care Entity acting on its behalf for the Exchange Purpose of the Government Health Care Entity);
- (iii) a Health Care Provider (or the Health Care Provider's agent or contractor acting on its behalf for the Exchange Purpose of the Health Care Provider) but not a Covered Entity or a Government Health Care Entity;
- (iv) a federal, state, local, or tribal agency, instrumentality, or other unit of government that determines whether an Individual qualifies for government benefits for any purpose other than health care (for example, Social Security disability benefits) to the extent permitted by Applicable Law (or its agent or contractor acting on its behalf for the Exchange Purpose of such an agency, instrumentality or other unit);
- (v) a Public Health Authority (or its agent or contractor acting on its behalf for the Exchange Purpose of the Public Health Authority);
- (vi) an IAS Provider; or
- (vii) any entity that contracts with and enables connectivity for any of the entities listed in (i)-(vi) above.

An entity that is not included in the list above, but believes it is entitled to request information under one or more of the Exchange Purposes as described in Section 9 of the Common Agreement, may submit a request to the RCE for addition to this list as an SOP amendment in accordance with Section 5, Change Management in the Common Agreement.

Draft QHIN Application

QHIN Application Process

Pre-application Activities

Prospective QHIN reviews the Common Agreement, QTF, and SOPs.

Prospective QHIN participates in educational sessions.

Prospective QHIN signs the Common Agreement and submits QHIN Application package.

The RCE makes an eligibility determination.

QHIN onboarding

If application is accepted, prospective QHIN begins the QHIN onboarding process, including technical testing and production connectivity validation.

If all requirements are met, RCE counter-signs the Common Agreement and designates the applicant as a QHIN.

RCE provides written notice of QHIN Designation to both the applicant and ONC.

All relevant materials and resources will be available at www.RCE.SequoiaProject.org.

The application provides the Recognized Coordinating Entity (RCE) with the information needed to determine a prospective Qualified Health Information Network's (QHIN) ability to meet its obligations and responsibilities under the Common Agreement. Exchange activities under the Common Agreement rely heavily on trust among the community of QHINs, and the application will assist an applicant in demonstrating their readiness to join that community of trust.

In order for an organization to be Designated as a QHIN, the following requirements must be met:

- » The RCE must notify applicant of its acceptance of this application;
- » Applicant must pay any applicable fees to the RCE; and
- » Applicant must complete any additional pre-requisites specified in the QHIN Onboarding & Designation SOP.

The information contained in the application shall be treated as Confidential Information and shall only be shared consistent with the governance process.

- **Part I: Basic Applicant Information (non-exhaustive)**
 - » Evidence that applicant is validly organized, in good standing
 - » Information on financial health of organization
 - » Proof of insurance
 - » Organizing documents
 - » List of current officers and members of governing body/ies
 - » Person(s) or entity(-ies) with an ownership interest equal to or greater than 5% of the total ownership interests in the organization
 - » A copy of the document(s) that memorialize your network's governance and the governing body's authority to govern the network
- **Part II: Exchange Purposes and Capabilities**
 - » Exchange Purposes currently used to initiate transactions and those that are currently responded to
 - » Ability to support technical functionality, as outlined in the QTF or other functionally comparable exchange method

- **Part III: Network Members, Governance, and References**
 - » Description of how network governance rules are communicated, enforced, and changed
 - » Description of entities participating in network and any limits to the types that can participate
 - » Documents governing network operations
 - » References
- **Part IV: QHIN Responsibilities**
 - » Description of the organization's dispute resolution process
 - » Information handling practices
 - » Common Agreement project plan
- **Part V: QHIN Operations and Organizational Structure**
 - » Information regarding technical architecture and ability to expand volume of data transactions
 - » Information regarding organizational structure
 - » Agreement with third-party technology vendor (if any)

- **Part VI: QHIN Privacy and Security Requirements**

- » Information on current HIPAA status and reportable breaches over the past 3 years
- » Evidence of network certification under a nationally recognized security framework
- » Executive summary of most recent 3rd party security assessment
- » Most recent POA&M (or equivalent)
- » HIPAA security risk analysis
- » Penetration testing summary report
- » Internal network vulnerability assessment
- » Evidence of CISO
- » Written privacy policy

Draft Onboarding and Designation SOP

Draft Onboarding and Designation SOP

ONC
TEFCA
RECOGNIZED
COORDINATING
ENTITY

This draft SOP identifies the process and specific requirements for Onboarding and Designation, including demonstrating satisfaction of the QHIN Eligibility Criteria, the review and disposition of all QHIN applications, and the testing process.

Section I: Eligibility Requirements

Section II: QHIN Application Process

1. Beginning the application process
2. RCE review of applications for completeness
3. RCE review of complete applications
4. Assertion of compliance

Section III: Pre-Production Testing Process

1. QHIN Onboarding
2. QHIN Onboarding Process
3. Testing Overview
4. Pre-Production Testing Timeline
5. Conformance Testing Process
6. Non-Production Partner Testing

Section IV: Designation & Post-Production Testing

1. Production Connectivity Validation

SOP: QHIN Security for the Protection of TEFCA Information

Rev. 1 (updated as of May 2022)

SOP: QHIN Security Requirements for the Protection of TEFCA Information

ONC
TEFCA
RECOGNIZED
COORDINATING
ENTITY

- **Purpose:** This SOP identifies specific requirements that QHINs must follow to protect the security of TI. It also provides specific information about the Cybersecurity Council.
- **Procedure:**
 1. Third-Party Cybersecurity Certification
 2. Annual Technical Audits
 3. Reports or Summaries of Certification Assessments & Annual Technical Audits
 4. Independent Review: Certification bodies and third-party assessment organizations must be qualified, independent third parties.
 5. Confidentiality of Security Assessment Reports or Summaries, POA&Ms, and Related Security Documentation
 6. Cybersecurity Council

Third-Party Cybersecurity Certification

ONC
TEFCA
RECOGNIZED
COORDINATING
ENTITY

- Every QHIN must be certified under a nationally recognized security framework from a list of pre-approved certifications/certifying bodies developed by the RCE.
- The RCE will maintain and publish a list of certifying bodies which meet the RCE's security certification requirements
 - a) Any third-party accreditation or certification body that can demonstrate adherence to the requirements listed in the SOP may be considered for inclusion
 - b) Interested parties should refer to the official RCE-published list of currently approved certifications available at <https://rce.sequoiaproject.org/qhin-cybersecurity-certification>
 - c) Certification bodies providing services that meet these requirements, but that have not yet been utilized by a designated QHIN, may also request approval to be included

- As part of a QHIN's third-party cybersecurity certification process, the certification body must:
 - a) Ensure assessments are conducted in accordance with the NIST Cybersecurity Framework (CSF), specifically all categories in the CSF and NIST 800-171 are required, with assessments conducted using NIST 800-53 moderate as a reference
 - b) Review the QHIN's HIPAA security analysis (consistent with §164.308(a)(1)(ii)(A))
 - c) Verify Common Agreement requirements for technical audits and assessments are met

Each QHIN must obtain a third-party technical audit of in-scope systems on no less than an annual basis. A QHIN's annual third-party technical audit must include the following:

- (a) Adoption of the NIST CSF: All categories in the CSF and NIST 800-171 are required, with technical audits conducted using NIST 800-53 moderate as a reference
- (b) Requirements of the HIPAA Security Rule, including HIPAA security analysis (consistent with §164.308(a)(1)(ii)(A))
- (c) Comprehensive internet-facing penetration testing
- (d) Internal network vulnerability assessment
- (e) A review of security requirements from the Common Agreement, security related SOPs, and other security requirements as may be required by the RCE at time of assessment
- (f) Utilize methodologies and security controls consistent with Recognized Security Practices, as defined by [Public Law No: 116-321](#)

Reports or Summaries of Certification Assessments & Annual Technical Audits

ONC
TEFCA
RECOGNIZED
COORDINATING
ENTITY

- The QHIN shall provide a report or summary of the results of its certification renewal assessments and annual technical audits within thirty (30) days of the QHIN's receipt of the report.
- If the assessment identifies any unaddressed deficiencies that meet the definition of moderate impact or high impact, the QHIN must take appropriate action(s) to mitigate the risk(s) of any such deficiencies.
- The SOP contains further requirements for the development, implementation, and routine reporting of an appropriate plan of action and milestones (POA&M) to identify the necessary activities, resources needed, responsible party/parties, reasonable mitigation efforts and/or compensating controls, and the timetable to full remediation.

- Certification bodies and third-party assessment organizations utilized by Certification bodies or QHINs must be qualified, independent third parties
 - (a) Organizations conducting assessments must attest (in the assessment report) to having no organizational conflicts of interest with the certification body or the organization being assessed
 - (b) Assessors must be security professionals with active or current security certifications requiring ongoing credential maintenance
 - (c) Third party assessments and certification activities are subject to quality review or sampling by the certification body to ensure consistency and quality

— .

- The RCE shall treat reports or summaries of the security assessment, POA&Ms, and any related documentation, such as milestone updates requested by the RCE or Cybersecurity Council, as Confidential Information and will not disclose them to anyone except:
 - (a) To the Cybersecurity Council, at the RCE's discretion
 - (b) To the Governing Council, upon recommendation of the Cybersecurity Council
 - (c) As required by law; or
 - (d) As requested by ONC in furtherance of the RCE's obligations under the Cooperative Agreement
